make a general clearing Col. W. R. Gossian, Genava, Ga.: barn cellars once a year, either in the spring Way to Kansas. Dear Sic-In my letter addressed to you or fall. Either practice makes a heavy some days since, in regard to the Clement draught upon the teams, and it has its dis- Meridian Mercury.] attachment, I did not answer your imquiries advantages. If this work is done in the We learn that about 800 negroes in Jasper as fully as I desired, owing to a pressure of business occasioned by some days' absence from my office. At that time I thought it would be necessary to give a detailed description of the votice machinery, which season, there is more or less waste by leach. would have involved both time and space; ing and by evaporation. There is a growing ed that he would take them to Kansas for but upon reflection I think I can confine disposition among our intelligent farmers to \$1.50 each. What induced Pierce to pubmyself to a nerrower compass, and meet all apply manure directly to growing crops, or lish such an utterly false statement, we are the points set forth in your letter.

The several descriptions of this attachment, furnished in the columns of the Constitution, as also the one I saw in the Covington Star, were, in my opinion, substantially correct. I have also seen an article from Mr. Harden, or Windsor, N. C., and an attack of the crops and their owner, Manure is so much capital invested, and settern part of Clark, supposing a few dollars each was an adventisement, we are the points set forth in your letter.

In myself to a harrower compass, and marked apply manure directly to growing crops, or less such an utterly hisse statement, we are not informed. Whether he intended it as a hoax, or a fraud on the credulous negroes, the better for the crops and their owner. Manure is so much capital invested, and about 800 negroes, principally from the eastern part of Jasper and the Western part of Clark, supposing a few dollars each was all that was needed to carry them to Kansas, and the principal of the crops and their owner. Manure is so much capital invested, and about 800 negroes, principally from the eastern part of Jasper and the Western part of Clark, supposing a few dollars each was all that was needed to carry them to Kansas, and the principal of the crops and their owner. an advertisement from J. V. Stribling, of as to manufacture and turn out fertilizers gave up their homes, sold what little they Westminster, S. C., a copy of which I here every month in the year, so that the farmer had, and are now ready and determined, if with inclose, and which I think covers may suit his convenience in applying them possible, to find homes in the West. We truthfully every numerical point. Presum- to the soil. When manure is not wanted learn they sold their effects at a ruinous ing, therefore, that you have read a portion for cultivated crops, it is always safe to apply it to the grass crop, either in pastures that a more expression of my opinion is or upon meadows after moving. Top-dress-four or five dollars, and other property for

Contingent expenses per day, 50 cents. 150 Not only is the health and productive- to claim The price of labor and contingent expenses is a little in excess of those incurred by Mr. Stribling.

Now, the gross profit of the mill is the word labor between the profit of the mill is the word labor between the price of labor and contingent expenses is a little in excess of those incurred by Mr. Stribling.

Now, the gross profit of the mill is the whicken houses are the word between the profit of the mill is the whicken houses are the word between the profit of the mill is the whole Till the word between the profit of the mill is the whole Till the wants of the people, and an important question with all farmers who especially what the producing class need, will if accorded his place, represent the interest of his constituents with the utmost 1,960 Prizes. difference between the amount paid for the chicken houses are the worst harbors for raw and that received for the manufactured material. Mr. Stribling informed me thoroughly renovated, or new ones built that he paid at the rate of ten cents per pound for lint cotton and sold yarus at seventeen cents per pound, thus increasing bline, inside and roosts. Take out all the the value of the cotton seven cents per pound by the process of manufacturing. Well, 50,000 pounds of lint cotton at seven cents per pound amounts to \$3500. From this deduct the amount of expense as above given and we have a net profit of \$1625.

It will seen that 10 cents per pound for lint octton at seven cents per pound amounts to \$3500. From this deduct the amount of expense as above given and we have a net profit of \$1625.

It will seen that 10 cents per pound for cotton is the basis of my calculation, but the same proportion should follow the changes which have occurred in the prices careks, crevices, and under trash, and come changes which have occurred in the prices cracks, crevices, and under trash, and come a dollar, waiter; ice-cream for this of the raw material. If I am correct in the profits to prey upon the fowls at night. There is an insect powder sold, but we have should be satisfactory to any reasonable but little faith in any patent nostrum.
